DineVina — AI Usage Report (PA2)

Performed by: Hoàng Cao Phong (group record integration) | **Reviewed by:** Võ Mỹ Ngọc (assigned; review record not supplied) | **Edited by:** Hoàng Cao Phong

Declaration: Generative AI tools were used during PA2 documentation and technical training work. The entries below are grounded in existing team files and this consolidation activity. They describe tool-assisted work; they do not claim that unreported members made no use of such tools. Each member remains responsible for verifying their own usage before submission.

Detailed usage log

Performed by: Hoàng Cao Phong | **Reviewed by:** Võ Mỹ Ngọc (assigned; review record not supplied) | **Edited by:** Hoàng Cao Phong

Date	Member / source	Tool category	Purpose and output	Verification or limitation
23–24 Oct 2026	Hoàng Cao Phong, PA2 working usage record	OpenAI language model	Assisted initial Project Plan/Vision wording, planning agenda, checklist, Trello descriptions and PDF preparation.	Drafts were compared with the PA2 brief and PA1 report; earlier PDF pages and board descriptions were inspected. Team sign-off is not recorded in that source.
25–28 Oct 2026	Nguyễn Trung Kiên, individual Spec Kit training log on `dev`	GitHub Spec Kit with AI coding-agent integration	Used specification, plan and task workflows for a reservation API tutorial and reported an eight-scenario test run.	This is Kiên's self-reported training record. The integration editor did not rerun the Windows tutorial or independently reproduce its test result.
29 Oct 2026	Hoàng Cao Phong, PA2 integration	OpenAI language model	Compared pushed branches with the PA2 brief, assembled the Plan and Vision, prepared reporting documents, checked required sections and generated the package.	Source branch names, document content, internal links, PDF renders and ZIP contents are checked in this package. No meeting attendance or individual tutorial completion was inferred from generated text.

Member declarations and review rule

Performed by: Hoàng Cao Phong | **Reviewed by:** Võ Mỹ Ngọc (assigned; review record not supplied) | **Edited by:** Hoàng Cao Phong

Member	Source-backed declaration available by 29 Oct	Action before submission
Hoàng Cao Phong	Yes, as above.	Verify dates, tools, prompts or material used, and final edits.
Nguyễn Trung Kiên	Individual training record describes agent-assisted development.	Verify the exact tools and any further uses in the sprint.
Võ Mỹ Ngọc	No individual usage statement found on the fetched Vision branch.	Supply a yes/no declaration and a detailed log if tools were used.
Lương Thiện Nhân	No PA2 branch or individual usage statement found.	Supply a yes/no declaration and a detailed log if tools were used.
Trương Khánh Duy	No PA2 branch or individual usage statement found.	Supply a yes/no declaration and a detailed log if tools were used.

The team should not replace missing member declarations with a blanket “no AI” claim. Any additional entry must identify date, member, tool, purpose, material supplied, output and human verification.
