DineVina — PA2 Group 08 submission package

Performed by: Hoàng Cao Phong (integration) | **Reviewed by:** Võ Mỹ Ngọc (assigned; review record not supplied) | **Edited by:** Hoàng Cao Phong

Prepared 29 October 2026. The package combines the pushed PA2 contributions available by this date with the PA1 baseline and course requirements. It contains the original Markdown, PDF exports, Spec Kit source artifacts, technical evidence, a board screenshot and Git history. `PA2-Group08.zip` has one top-level directory named `PA2-Group08/`.

Package map

Path	Purpose
`Project-Plan.md` / `.pdf`	Initial Scrum plan, risk management, schedule, tasks and build plan.
`Vision.md` / `.pdf`	Positioning, stakeholders, product overview, features, Mermaid workflows and quality targets.
`Weekly-Report.md` / `.pdf`	Current factual report and required meeting structure.
`AI-Usage-Report.md` / `.pdf`	Group declaration and source-backed usage entries.
`Spec-Kit-Training.md` / `.pdf`	Project initialization and available individual training evidence.
`src/.specify/`	Project Spec Kit initialization artifacts under the required `src/` path.
`evidence/`	Board image, Kiên's tutorial files and API contract, source Git log.
`Source-Register.md`	Branch provenance and integration decisions.
`Submission-Checklist.md`	Requirements and evidence status at the preparation cut-off.

Evidence boundary

Performed by: Hoàng Cao Phong | **Reviewed by:** Võ Mỹ Ngọc (assigned; review record not supplied) | **Edited by:** Hoàng Cao Phong

The package has substantive Plan and Vision content. The available sources do not include actual minutes for all four PA2 ceremonies, personal tutorial records for four members, complete usage declarations, or a final peer-review record. The relevant reports say exactly what the sources establish. Those records must be added after the corresponding activities occur, and the affected PDFs and ZIP must then be regenerated. The proposed 6 November date is a board target, not a confirmed course deadline.

References
