DineVina — PA2 Submission Checklist

Performed by: Hoàng Cao Phong | **Reviewed by:** Võ Mỹ Ngọc (assigned; review record not supplied) | **Edited by:** Hoàng Cao Phong

Assessment date: 29 October 2026. “Included” means a file is in this package; it does not certify peer approval or that a scheduled future activity has occurred.

Course requirement	Package evidence	Assessment
Initial Project Plan in English Markdown with organization, at least three risks, five sprints, detailed Sprint 2 tasks and build plan	`Project-Plan.md`, `Project-Plan.pdf`	Included; reviewer sign-off not supplied.
Initial Vision in English Markdown with problem/position tables, stakeholder/user descriptions, product overview, nine feature paragraphs, 1–2 Mermaid workflows and measurable quality targets	`Vision.md`, `Vision.pdf`	Included; reviewer sign-off not supplied.
Spec Kit initialization under `/src`; constitution and generated Markdown	`src/.specify/`	Included from repository structure.
Individual Spec Kit tutorial evidence for five members	`Spec-Kit-Training.md`, Kiên's individual log and tutorial artifacts	One individual record found; four member records not found.
AI usage declaration and detailed log when used	`AI-Usage-Report.md`	Usage declared; individual declarations for Ngọc, Nhân and Duy not found.
Sprint Planning, two weekly Scrum meetings and Sprint Review records	`Weekly-Report.md`, Trello links	Board schedule and Planning completion marker exist; actual minutes and attendance not found.
Task assignment/progress screenshots	`evidence/trello-board-2026-10-29.png`	One dated board screenshot included; capture another near submission.
Git history	`evidence/git-log.txt`	Included; refresh after final review and packaging changes.
Markdown and PDF copies	Five primary reports in both formats	Included, subject to PDF quality check.
ZIP named for Group 08 with a top-level group directory	`PA2-Group08.zip`	Included; archive listing and CRC integrity test passed on 29 October.

Before course upload

Performed by: Hoàng Cao Phong | **Reviewed by:** Võ Mỹ Ngọc (assigned; review record not supplied) | **Edited by:** Hoàng Cao Phong

- Confirm the course deadline and upload destination.
- Obtain actual meeting records, four missing tutorial records and remaining usage declarations.
- Obtain peer review of the Plan, Vision and reports; fix any comments.
- Refresh the board screenshot and Git log; regenerate affected PDFs and ZIP.
- Inspect the final archive and retain the course upload receipt.
